

Abbeyfield School Sports Directory

Inside, you will find information about the local sports clubs in the Chippenham area. Throughout the years, Abbeyfield School has offered different sporting opportunities - including a variety of competitions and leadership roles. This directory will help you to find the information to join local clubs, accessing the chance to participate further in sport.

Our sporting events have provided pupils with an experience of working alongside other schools. This has allowed students to take part in sport in ways other than participation – due to leadership events which take place at Abbeyfield School. These courses equip pupils with the knowledge they need to support sporting events at school, such as break time activities and community sports meetings.

It continues to be a priority of Abbeyfield PE Staff and Sports Enrichment Coordinators to deliver a high quality of PE and leadership. This directory will therefore help provide information about the range of sports clubs offered to the local community.
